

# Fábio Salgado

public policy, culture and digital products

What joins the three worlds is the same move: understand a system, find its rules, and make something with it.

I split my time between Alfama, in Lisbon, and Ribeira Branca, in Torres Novas. I was born in Nazaré.

I build together with Claude — this site included. Everything is listed below.

## PROJECTS

---

### **primeiraplateia.pt** (<https://primeiraplateia.pt>)

2016 – ongoing · live

*founder and maker · product*

Portugal's cultural agenda in one place: over 1500 events on show, across 77 venues in 33 municipalities.

Filter by day, by free admission and by accessibility. Follow artists and venues. Weekly newsletter.

Born in 2016 as EmCena.pt, a Lisbon theatre listing. Renamed and relaunched in 2026, now nationwide.

I founded it, I run it, I built it.

### **onofriana.pt** (<https://onofriana.pt>)

2026 – ongoing · live

*co-founder and producer · site*

Fado: curation, production and programming.

Named after Maria Severa Onofriana. Four formats: Severa, Mariquinhas, Guitarradas and Vimioso.

Artistic curation by Marta Rosa.

I co-founded it and I produce it; the site is mine too.

### **franciscasalgado.golf** (<https://franciscasalgado.golf>)

2026 – ongoing · live

*site author*

A golfer's path, season by season: WAGR and European rankings, partnerships, press and WITB.

### **martarosa.pt** (<https://martarosa.pt>)

2026 – ongoing · live

*site author*

The site of a fado singer who writes what she sings: calendar, discography, press kit and booking.

Voice, fado viola, and her own lyrics.

## **travertina.casa**

2026 – ongoing · private

*product author*

A house run like a company: calendar and tasks, contacts and contracts, wallet and cash flow, credit, utilities, taxes, shopping and transport.

Construction module: chapters by phase, budget versus paid, expense log and per-room sheets.

It reaches outside through APIs: weather, wildfire risk, automations and alerts.

Private application, behind authentication — no public link. The screenshots show demo data.

## **fado.today (<https://fado.today>)**

2026 – ongoing · live

*author*

Selling fado experiences in Lisbon: six houses, chosen by someone who lives in Alfama.

## **pospopular**

2026 – ongoing · private

*product author*

Multi-tenant point of sale for events and fundraising: order slips, tables, consumption cards and kitchen tickets.

Private application, behind authentication — no public link.

## **salgado.zip (<https://salgado.zip>)**

2026 – ongoing · live

*author*

This site. One data source, several outputs, and a battery of checks before every release. The code is public.

Built together with Claude. The colophon tells the rest.

## **CAREER**

---

### **Public Affairs Consultant**

2022 – ongoing

*ATREVIA*

Regulation, institutional relations and communication for clients across sectors — from advice to delivery.

I follow the Portuguese legislative and regulatory process and design the response: whom to talk to, when, and with what.

I map who decides and who influences, working with teams across disciplines.

### **Political Adviser**

2018–2022

*Câmara Municipal de Lisboa*

Adviser to city councillors and municipal deputies: Culture, Housing, Human Rights and Social Rights.

From framing to final wording: legislative analysis, reports, motions and proposals.

Press monitoring and management of institutional channels.

## Barman and stage manager

2015–2017

*Chapitô*

Bar and stage management at Bartô, the Chapitô venue. Culture seen from the side that sets up and tears down.

## Owner

2010–2014

*Lisbon Souvenir*

My own shop in Lisbon: buying, selling, the books and the counter.

### INSTITUTIONAL MANDATES

---

## Member

2017–2021

*Assembleia de Freguesia de Santa Maria Maior, Lisboa*

## Municipal Assembly deputy

2007–2015

*Assembleia Municipal da Nazaré*

### CERTIFICATES

---

## Moral Foundations of Politics

2024

*Yale University*

## Lobbying and Advocacy

2024

*Centro Internacional de Formação da OIT (ITCILO)*

## Using Public Policy for Social Change

2024

*University of Michigan*

### COLOPHON

---

Static Astro. No cookies, no tracking, not a single third-party request. IBM Plex type, self-hosted.

One data source, several outputs: this page, the CV and portfolio PDFs, the resume.json and [salgado.zip](#) itself.

In all, 3559 lines of code across 43 files — counted before every release, like everything else here.

A battery of checks runs before every release: contrast, links, JavaScript-free navigation, private-content leaks.

Designed, written and built together with Claude — Claude Code, by Anthropic. From first plan to deploy.
